
Amazon Research Awards

Call for proposals

Awards are structured as unrestricted gifts to the principal investigator's academic institution or organization and as such, Amazon retains no intellectual property rights to the resulting work. Recipients are encouraged to publish outcomes and commit related code to open-source repositories. Recipients are assigned an Amazon research contact who offers consultation and advice along with opportunities to participate in Amazon events and training sessions.

Spring 2025: Open

The submission period will close April 30.

AI for Information Security

Advancing possible solutions for some of the most challenging problems in information security.
