

# Amazon Research Awards

---

≡ **amazon science**

---

**Call for proposals**

Awards are structured as unrestricted gifts to the principal investigator's academic institution or organization and as such, Amazon retains no intellectual property rights to the resulting work. Recipients are encouraged to publish outcomes and commit related code to open-source repositories. Recipients are assigned an Amazon research contact who offers consultation and advice along with opportunities to participate in Amazon events and training sessions.

## **Spring 2026: Open Now**

The submission period will close on May 6.

**AI for Information Security**

Advancing possible solutions for some of the most challenging problems in information security

## **Agentic AI**

Advancing the frontiers of AI agents

## **Amazon 2030**

Advancing science through scale-driven innovation in the next three to five years

## **Amazon Security**

Setting the standard for security at Amazon

## **Build on Trainium: Accelerating Post-Training**

Building the future of AI with AWS Trainium

## **Build on Trainium: Kernels for ML Acceleration**
