CRI Technology Impact Award

Apply for a CRI Technology Impact Award

START APPLICATION

CONTINUE APPLICATION

The CRI Technology Impact Award provides seed funding of up to $200,000 to be used over 12–24 months to address the gap between technology development and clinical application of cancer immunotherapies. These grants aim to encourage collaboration between technology developers and clinical cancer immunologists and to generate the proof-of-principle of a
Award winners will be selected based on the novelty, creativity, technical sophistication, and transformative potential of the technology to impact cancer immunotherapy research around the world. The ultimate aim of this program is to advance technologies that can speed up the entire field’s efforts in addressing one of the most defining challenges of our time—developing immunotherapies that are effective for all cancer patients.
