

**Program Announcement for the Department of Defense
Defense Health Program**

Rare Cancers Research Program Idea Development Award

Funding Opportunity Number: HT942525RCRPIDA

Pre-Application Due: July 1, 2025

Application Due: October 6, 2025

This program announcement must be read in conjunction with the General Application Instructions, version [CD25_01](#).

Content

	Before You Begin	3
①	Basic Information Contains a <u>summary of the funding opportunity</u> , <u>funding details</u> , and <u>submission/review dates</u>	4
②	Eligibility Details the factors that determine <u>applicant organization</u> and <u>Principal Investigator</u> eligibility	5
③	Program Description Describes the <u>program mission</u> and <u>intent of the Idea Development Award</u> , provides <u>key award information</u> and <u>considerations</u> , and outlines <u>funding restrictions</u>	6
④	Application Contents Introduces the two-step <u>application process</u> and provides instructions for preparing a <u>pre-application</u> and <u>full application</u>	10
⑤	Submission Requirements Provides <u>locations for application packages</u> , instructions for submitting <u>pre-applications</u> and <u>full applications</u> , and describes <u>application verification</u>	18
⑥	Application Review Information Outlines the processes associated with application <u>compliance review</u> , <u>pre-application</u> and <u>full application</u> selection/notification, and <u>risk assessment</u> . Also details the complete review criteria for <u>pre-application screening</u> and both tiers of the CDMRP's application review process, <u>Peer Review</u> and <u>Programmatic Review</u>	21
⑦	Federal Award Notices Outlines what a successful applicant can expect to receive <u>if recommended for funding</u>	25
⑧	Post-Award Requirements References <u>policy requirements</u> for funded research, outlines <u>reporting requirements</u> , and restrictions related to <u>Principal Investigator changes</u> or <u>institutional award transfers</u>	26
⑨	Other Information Outlines criteria for administrative actions including application <u>rejection</u> , <u>modification</u> , <u>withdrawal</u> and <u>withhold</u>	28
	Appendix 1 Includes a checklist for all full application components to facilitate application submission	30
	Appendix 2 Acronym List	31

Before You Begin

- **Active SAM.gov, eBRAP.org, and Grants.gov registrations are required for application submission.** User registration for each of these websites can take several weeks or longer. Each applicant must ensure their registrations are active and up to date prior to application preparation.
- **Read the funding opportunity announcement in the order it is written before beginning to prepare application materials.** It is the responsibility of the applicant to determine whether the proposed research meets the intent of the funding opportunity and that all parties meet eligibility requirements.

1. Basic Information About the Funding Opportunity

Summary: The fiscal year 2025 (FY25) Rare Cancers Research Program (RCRP) Idea Development Award (IDA) promotes new ideas that are still in the early stages of development and have the potential to yield impactful data and new avenues of investigation.

Distinctive Features:

- Applications are encouraged to include an exploratory aim or sub-aim to support any necessary discovery-driven research.
- **Preliminary data with disease-specific rationale are required.** However, these data do not necessarily need to be derived from studies of the proposed rare cancer type(s)/subtype(s) under study.
- **Research should have high potential impact on rare cancers and the patient community.**

Funding Details: (*New for FY25*) Funding limits are now listed as **total cost limits, which is the combination of both direct and indirect costs.** The Congressionally Directed Medical Research Programs (CDMRP) expects to allot approximately \$6.86M to fund approximately 14 Idea Development Award applications with total cost caps of \$0.49M. The maximum period of performance is 3 years. It is anticipated that awards made from this FY25 funding opportunity will be funded with FY25 funds, which will expire for use on September 30, 2031. Awards supported with FY25 funds will be made no later than September 30, 2026.

Submission and Review Dates and Times

- **Pre-Application (Preproposal) Submission Deadline:** 5:00 p.m. Eastern Time (ET), July 1, 2025
- **Invitation to Submit an Application:** August 8, 2025
- **Application Submission Deadline:** 11:59 p.m. ET, October 6, 2025
- **End of Application Verification Period:** 5:00 p.m. ET, October 9, 2025
- **Peer Review:** December 2025
- **Programmatic Review:** March 2026

Announcement Type: Initial

Funding Opportunity Number: HT942525RCRPIDA

Assistance Listing Number: 12.420

2. Eligibility Information

2.1. Eligible Applicants

2.1.1. Organization

Extramural and intramural organizations are eligible to apply, ***including foreign and domestic organizations, for-profit and non-profit organizations, and public or private entities.***

Extramural Organization: An eligible non-Department of Defense (DOD) organization. Examples of extramural organizations include academic institutions, biotechnology companies, foundations, federal government organizations other than the DOD (i.e., intragovernmental organizations), and research institutes.

Intramural DOD Organization: Refers specifically to DOD organizations including DOD laboratories, DOD military treatment facilities, and/or DOD activities embedded within a civilian medical center.

2.1.2. Principal Investigator

Independent investigators at or above the level of Assistant Professor (or equivalent) are eligible to be named as the Principal Investigator (PI) on an RCRP Idea Development Award.

Individuals affiliated with an eligible organization are eligible to be named as PI regardless of ethnicity, nationality, or citizenship status.

2.2. Cost Sharing

Cost sharing is not an eligibility requirement.

2.3. Other

Awards are made to eligible ***organizations***, not to individuals. Refer to the General Application Instructions, Appendix 1, for additional recipient qualification requirements.

3. Program Description

The U.S. Army Medical Research Acquisition Activity (USAMRAA) is soliciting applications to this funding opportunity using delegated authority provided by United States Code, Title 10, Section 4001 (10 USC 4001). The CDMRP at the U.S. Army Medical Research and Development Command (USAMRDC) is the program office managing this FY25 funding opportunity as part of the RCRP. Congress initiated the RCRP in 2020 to provide support for research of exceptional scientific merit in the area of rare cancers research. Appropriations for the RCRP from FY20 through FY24 totaled \$77.5 million (M). The FY25 appropriation is \$17.5M.

In FY20, the Defense Appropriations Act provided \$7.5M to the Department of Defense (DOD) to support rare cancers research. The rare cancers research topic area was first introduced under the Peer Reviewed Cancer Research Program (PRCRP) in FY19. In FY20, the rare cancers topic area was excluded under PRCRP by Congress and RCRP was created as an individual program. In addition to the PRCRP, the CDMRP-managed cancer-specific research programs, such as breast, melanoma, and ovarian cancers have also funded rare cancer subtypes based on their site-specific origin classifications.

FY25 RCRP definition of rare cancers: Cancers affecting six or fewer persons per 100,000 per year in the United States. Applicants will be required to provide a justification statement explaining the relevance of the investigated cancer types/subtypes that fall under the RCRP's definition of rare cancers.

The proposed research must be relevant to active-duty Service Members, Veterans, military beneficiaries, and the American public.

3.1. Award History

The RCRP Idea Development Award mechanism was first offered in FY20. Since then, 663 Idea Development Award applications were received, and 71 were recommended for funding.

3.2. Intent of the Idea Development Award

The FY25 RCRP Idea Development Award promotes new ideas that are still in the early stages of development and have the potential to yield impactful data and new avenues of investigation. This award supports research supported by preliminary data that could lead to critical discoveries or major advancements that will accelerate progress toward eradicating rare cancers.

Preliminary data with disease-specific rationale (may include correlative studies to ongoing clinical research) to support the feasibility of the research hypotheses and research approaches are required; however, these data do not necessarily need to be derived from studies of the proposed rare cancer type(s)/subtype(s) under study.

Applications should include a well-formulated, testable hypothesis based on strong scientific rationale.

3.2.1. Focus Areas for the IDA

To meet the intent of the funding opportunity, applications for the FY25 RCRP Idea Development Award must address at least one of the three focus areas listed below:

- **Biology:** Identify disease-defining molecular pathways, cell context, and microenvironment.

Section Shortcuts

Basic Information | Eligibility | [Program Description](#) | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- **Pre-Clinical Research Model:** Develop and validate rare tumor-specific models that can support clinical trial readiness.
- **Therapy:** Identify novel therapeutic strategies, including drug repurposing, to eliminate rare cancers.

3.2.2. Key Elements for the IDA

- **Impact:** Research that has high potential impact may lead to major advancements and greatly improve outcomes for people with rare cancers. Applications that demonstrate exceptional scientific merit but lack high potential impact do not meet the intent of the Idea Development Award.
- **Research Idea:** Research should demonstrate exceptional scientific merit and be justified by strong rationale. In addition, **applications are encouraged to include an exploratory aim or sub-aim** in situations where discovery-driven research may reveal unanticipated insights or innovative strategies relevant to rare cancers.
- **Preliminary data:** Although the proposed research must have direct relevance to rare cancers, the required preliminary data may be from outside the rare cancers research field or may include unpublished results from the laboratory of the PI, research team, or collaborators named on the application.
- **Rationale:** Research should also be based on a sound scientific rationale that is established through logical reasoning and critical review and analysis of the literature.

3.2.3. Other Important Considerations for the IDA

Clinical trials are not allowed.

A clinical trial is defined in the Code of Federal Regulations, Title 45, Part 46.102 (45 CFR 46.102) as a research study in which one or more human subjects are prospectively assigned to one or more interventions (which may include a placebo or another control) to evaluate the effects of the interventions on biomedical or behavioral health-related outcomes. An **intervention** includes both physical procedures by which information or biospecimens are gathered and manipulations of the subject or the subject's environment that are performed for research purposes.

Studies that do not seek to measure safety, effectiveness, and/or efficacy outcome(s) of an intervention are not considered clinical trials.

For the purposes of this funding opportunity, research that meets the definition of a clinical trial is distinct from clinical research. Clinical research encompasses research with human data, human specimens, and/or interaction with human subjects. Clinical research is observational in nature and includes:

- (1) Research conducted with human subjects and/or material of human origin such as data, specimens, and cognitive phenomena for which an investigator (or co-investigator) does **not** seek to assess the safety, effectiveness, and/or efficacy outcomes of an intervention. Research meeting this definition may include but is not limited to: (a) mechanisms of human disease; (b) diagnostic or detection studies (e.g., biomarker or imaging); (c) health disparity studies; and (d) development of new technologies.
- (2) Epidemiologic and behavioral studies that do **not** seek to assess the safety, effectiveness, and/or efficacy outcomes of an intervention.

Section Shortcuts

Basic Information | Eligibility | [Program Description](#) | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

(3) Outcomes research and health services research that do not fit under the definition of clinical trial.

Excluded from the definition of clinical research are in vitro studies that utilize human data or specimens that cannot be linked to a living individual and meet the requirements for exemption under [§46.104\(d\)\(4\) of the Common Rule](#).

All projects should adhere to a core set of standards for rigorous study design and reporting to maximize the reproducibility and translational potential of clinical and preclinical research. The standards are described in SC Landis et al., 2012, A call for transparent reporting to optimize the predictive value of preclinical research, *Nature* 490:187-191 (<https://www.nature.com/nature/journal/v490/n7419/full/nature11556.html>). While these standards are written for preclinical studies, the basic principles of randomization, blinding, sample-size estimation, and data handling derive from well-established best practices in clinical studies.

Applications from investigators within the military services and applications involving multidisciplinary collaborations among academia, industry, the military services, the U.S. Department of Veterans Affairs (VA), and other federal government agencies are highly encouraged. These relationships can leverage knowledge, infrastructure, and access to unique clinical populations that the collaborators bring to the research effort, ultimately advancing research that is of significance to Service Members, Veterans, and/or their Families. If the proposed research relies on access to unique resources or databases, the application must describe the access at the time of submission and include a plan for maintaining access as needed throughout the proposed research.

3.3. CDMRP-wide Encouragements

The following encouragements are broadly applicable across many CDMRP programs, including the RCRP. Investigators are encouraged to consider addressing these areas in their applications if doing so is appropriate for their line of research and meets the intent of this funding opportunity.

VA data suggests that rare cancers are the most prevalent types or sub-types of cancers among the Veteran population. Therefore, the RCRP aims to improve the health, care, and well-being of military Service Members, Veterans, their Families, and the American public.

A congressionally mandated Metastatic Cancer Task Force was formed with the purpose of identifying ways to help accelerate clinical and translational research aimed at extending the lives of advanced state and recurrent patients. As a member of the Metastatic Cancer Task Force, CDMRP encourages applicants to review the [recommendations](#) and submit research ideas to address these recommendations provided they are within the limitations of this funding opportunity and fit within the FY25 RCRP priorities.

Innovative research involving nuclear medicine and related techniques to support early diagnosis, more effective treatment, and improved health outcomes of Service Members and their Families is encouraged. Such research could improve diagnostic and targeted treatment capabilities through noninvasive techniques and may drive the development of precision imaging and advanced targeted therapies.

The CDMRP encourages research on health areas and conditions that affect women uniquely, disproportionately, or differently from men. Such research should relate anticipated project findings to improvements in women's health outcomes and/or advancing knowledge for women's health.

Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

3.4. Funding Instrument

The funding instrument for awards made under the program announcement will be grants (31 USC 6304).

3.5. Funding Details

Period of Performance: The maximum period of performance is **3** years.

New for FY25: Funding limits are now listed as total cost limits, which is the combination of both direct and indirect costs. This is a change from prior years which listed funding limits for direct costs only.

Cost Cap: The application's total costs budgeted for the entire period of performance should not exceed **\$490,000**. If indirect cost rates have been negotiated, indirect costs are to be budgeted in accordance with the organization's negotiated rate. Collaborating organizations should budget associated indirect costs in accordance with each organization's negotiated rate.

All direct and indirect costs of any subaward or contract must be included in the direct costs of the primary award.

The applicant may request the entire maximum funding amount for a project that may have a period of performance less than the maximum **3** years.

The appropriateness of the budget for the proposed research will be assessed during peer review.

Direct Cost Restrictions: For this award mechanism, total costs:

May be requested for (not all-inclusive):

- Travel in support of multi-institutional collaborations.
- Costs for one investigator to travel to one scientific/technical meeting per year. The intent of travel to scientific/technical meetings should be to present project information or disseminate project results from the FY25 RCRP Idea Development Award.

Must not be requested for:

- Clinical trial costs.
- Tuition.
- Costs for travel to scientific/technical meeting(s) beyond the limits stated above.

4. Application Contents and Format

4.1. Application Overview

Application submission is a two-step process requiring both a **pre-application** submitted via the Electronic Biomedical Research Application Portal ([eBRAP](#)) and a **full application** submitted through eBRAP or Grants.gov. Depending on the submission portal, certain aspects of the application will differ.

Intramural DOD organizations submitting a full application should follow instructions for submission through eBRAP.

Extramural organizations submitting a full application must follow instructions for submission through Grants.gov.

4.2. Step 1: Pre-Application Components

Pre-application submissions must include the following components.

Note: Upload documents as individual PDF files unless otherwise noted.

- **Preproposal Narrative (two-page limit):** The Preproposal Narrative page limit applies to text and non-text elements (e.g., figures, tables, graphs, photographs, diagrams, chemical structures, drawings) used to describe the project. Inclusion of URLs that provide additional information to expand the Preproposal Narrative and could confer an unfair competitive advantage is prohibited and may result in administrative withdrawal of the pre-application.

The Preproposal Narrative should include the following:

- **Justification:** Explain how the study justifies as rare cancers research and how the cancer type, in the proposed study, falls under the [RCRP rare cancers definition](#).
- **Research:** Describe the project's hypothesis, objectives, rationale, and specific aims. Describe the methodology and experimental design and explain how these will support the hypothesis and/or objectives of the project. Preliminary data with disease-specific rationale (may include correlative studies to ongoing clinical research) to support the feasibility of the research hypotheses and research approaches are required; however, these data do not need to be derived from studies of the proposed rare cancer type(s)/subtype(s) under study.
- **Focus Area Relevance:** Explain how the proposed research will lead to promising outcomes for one or more of the [FY25 RCRP Focus Area\(s\)](#).
- **Impact:** Describe how the proposed research challenges a current paradigm, looks at existing problems from new perspectives, and/or exhibits other uniquely creative qualities. Describe how the novel idea will have a major impact on the outcomes of people with rare cancers, and the understanding of rare cancers.
- **Pre-Application Supporting Documentation:** The items to be included as supporting documentation for the pre-application ***must be uploaded as individual files*** and are limited to the following:
 - **References Cited (one-page limit):** List the references cited (including URLs if available) in the Preproposal Narrative using a standard reference format that includes

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

the full citation (i.e., author[s], year published, reference title, and reference source, including volume, chapter, page numbers, and publisher, as appropriate).

- **List of Abbreviations, Acronyms, and Symbols:** Provide a list of abbreviations, acronyms, and symbols used in the Preproposal Narrative.
- **Key Personnel Biographical Sketches:** *All biographical sketches should be uploaded as a single combined file.* Biographical sketches should be used to demonstrate background and expertise through education, positions, publications, and previous work accomplished.

4.3. Step 2: Full Application Components

Applicants must receive an invitation to submit a full application. Uninvited full application submissions will be rejected.

Each application submission must include the completed full application package for this program announcement. See [Appendix 1](#) for a checklist of the full application components.

(a) SF424 Research & Related Application for Federal Assistance Form (Grants.gov Submissions Only): Refer to the General Application Instructions, Section IV.B.(a), for detailed information.

IMPORTANT: When completing the SF424 R&R, enter the eBRAP log number assigned during pre-application submission into Block 4a – Federal Identifier.

(b) Attachments:

Each attachment of the full application components must be uploaded as an individual file in the format specified and in accordance with the formatting guidelines listed in the General Application Instructions, Appendix 2.

- **Attachment 1: Project Narrative (10-page limit): Upload as “ProjectNarrative.pdf”.** The page limit of the Project Narrative applies to text and non-text elements (e.g., figures, tables, graphs, photographs, diagrams, chemical structures, drawings) used to describe the project. Inclusion of URLs (uniform resource locators) that provide additional information that expands the Project Narrative and could confer an unfair competitive advantage is prohibited and may result in administrative withdrawal of the application.

Describe the proposed project in detail using the outline below. ***Preliminary data with disease-specific rationale (including correlative studies to existing clinical research) to support the feasibility of the research hypotheses and research approaches are required; however, these data do not need to be derived from studies of the proposed rare cancer type(s)/subtype(s) under study.***

- **Background:** Present the scientific rationale and feasibility behind the proposed research; include relevant literature citations and preliminary data that led to the development of the proposed study. ***Any preliminary data provided should be from the laboratory of the PI or member(s) of the collaborating team.***
- **Hypotheses/Objectives:** State the hypotheses/study questions and overall objective(s) to be reached.
- **Specific Aims:** Concisely explain the project’s specific aims. If this application is part of a larger study, present only tasks that this award would fund.

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- **Research Strategy and Feasibility:** Describe the experimental design, methods, and analyses, including appropriate controls, in sufficient detail for evaluation.
 - Address potential problem areas and present alternative methods and approaches.
 - If human subjects or human biological samples will be used, include a detailed plan for the recruitment of subjects or the acquisition of samples. This award cannot be used to conduct clinical trials.
 - If applicable, describe the strategy for the inclusion of women and minorities appropriate to the objectives of the study, including a description of the composition of the proposed study population in terms of sex, racial, and ethnic group, and an accompanying rationale for the selection of subjects.
 - Identify any potential problems and address alternative approaches.
- **Data Collection and Statistical Analysis Plan:** Describe how data will be collected and analyzed in a manner that is consistent with the study objectives.
 - Detail a statistical analysis plan for the resulting outcomes.
 - If applicable, include a complete power analysis to demonstrate that the sample size is appropriate.
 - Describe how data will be reported and how it will be assured that the documentation will support a regulatory filing with U.S. Food and Drug Administration (FDA) or international regulatory agency, if applicable.
- **Attachment 2: Supporting Documentation: Combine and upload as a single file named “Support.pdf”.** Start each document on a new page. The Supporting Documentation attachment should not include additional information such as figures, tables, graphs, photographs, diagrams, chemical structures, or drawings. These items should be included in the Project Narrative.

There are no page limits for any of these components unless otherwise noted. Include only those components described below; inclusion of items not requested or viewed as an extension of the Project Narrative will result in the removal of those items or may result in administrative withdrawal of the application.

- **References Cited:** List the references cited (including URLs, if available) in the Project Narrative using a standard reference format.
- **List of Abbreviations, Acronyms, and Symbols:** Provide a list of abbreviations, acronyms, and symbols.
- **Facilities, Existing Equipment, and Other Resources:** Describe the facilities and equipment available for performance of the proposed project and any additional facilities or equipment proposed for acquisition at no cost to the award. Indicate whether government-furnished facilities or equipment are proposed for use. If so, reference should be made to the original or present government award under which the facilities or equipment items are now accountable. There is no form for this information.
- **Publications and/or Patents:** Include a list of relevant publication URLs and/or patent abstracts. If articles are not publicly available, then copies of up to five published manuscripts may be included in Attachment 2. Extra items will not be reviewed.

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- **Letters of Support:** Provide individual letters signed by collaborating individuals and/or organizational officials demonstrating that the PI has the support and resources necessary for the proposed work. Letters from the PI's Department Chair, or appropriate organization official, should also confirm that the PI(s) meet [eligibility criteria](#). If applicable, provide a letter of support, signed by the lowest-ranking person with approval authority, confirming participation of intramural DOD collaborator(s) and/or access to military populations, databases, or DOD resources. If applicable, provide a letter of support signed by the VA Facility Director(s), or individual designated by the VA Facility Director(s), confirming access to VA patients, resources, and/or VA research space.
- **Intellectual Property:** Information can be found in the 2 CFR 200.315, "Intangible Property."
 - **Intellectual and Material Property Plan (if applicable):** Provide a plan for resolving intellectual and material property issues among participating organizations.
 - **Commercialization Strategy (if applicable):** Describe the commercialization plan. The plan should include intellectual property, market size, financial analysis, strengths and weaknesses, barriers to the market, competitors, and management team. Discuss the significance of this development effort, when it can be anticipated, and the potential commercial use for the technology being developed.
- **Sex as a Biological Variable Strategy (two-page limit is recommended):** Describe the strategy for how sex will be considered as a biological variable. This strategy should include a brief discussion of what is currently known regarding sex differences in the applicable research area. Clearly articulate how sex as a biological variable will be factored into the data analysis plan and how data will be collected and disaggregated by sex. If needed, provide a strong rationale for proposing a single-sex study, based on justification from scientific literature, preliminary data, or other relevant considerations. Refer to the [CDMRP Directive on Sex as a Biological Variable in Research](#) for additional information.
- **Data and Research Resources Sharing Plan:** Describe the type of data or research resources (e.g., bio-specimen, analysis tool/software, training material) to be made publicly available as a result of the proposed work. Describe how data and resources generated during the period of performance will be shared with the research community and other affected communities. Include the name of the repository(ies) where scientific data and resources arising from the proposed clinical trial will be archived, if applicable. If a public repository will not be used for data or resource sharing, provide justification. Provide a milestone plan for data/results dissemination including when data and resources will be made available to other users, including dissemination activities with a particular focus on feeding back the data to affected communities and/or research participants. Refer to CDMRP's [Policy on Data & Resources Sharing](#) for more information about CDMRP's expectations for making data and research resources publicly available.
- **Inclusion Enrollment Plan (only required if clinical research is proposed):** Provide an anticipated enrollment table(s) for the inclusion of women and minorities using the "[Public Health Service \(PHS\) Inclusion Enrollment Report](#)", a three-page fillable PDF form, that can be downloaded from eBRAP. The enrollment table(s) should be appropriate to the objectives of the study with the proposed enrollment

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

distributed on the basis of sex, race, and ethnicity. Studies utilizing human biospecimens or datasets that cannot be linked to a specific individual, ethnicity, or race (typically classified as exempt from IRB review) are exempt from this requirement.

- **Attachment 3: Technical Abstract (one-page limit): Upload as “TechAbs.pdf”.** The technical abstract is used by all reviewers. ***Abstracts of all funded research projects will be posted publicly.*** Use only characters available on a standard QWERTY keyboard; spell out all Greek letters, other non-English letters, and symbols. Graphics are not allowed.

Technical abstracts should be written using the outline below. Clarity and completeness within the space limits are highly important.

- **Background:** Present the scientific rationale behind the proposed research project.
- **Focus Area(s):** State the [FY25 RCRP Focus Area\(s\)](#) that will be addressed.
- **Hypothesis/Objective(s):** State the hypothesis to be tested and/or objective(s) to be reached.
- **Specific Aims:** State the specific aims of the study.
- **Study Design:** Describe the study design, including appropriate controls.
- **Impact:** Summarize the potential impact of the proposed project toward the goal of greatly improving outcomes for people with rare cancers.

- **Attachment 4: Lay Abstract (one-page limit): Upload as “LayAbs.pdf”.** The lay abstract is used by all reviewers and addresses issues of particular interest to the affected community. ***Abstracts of all funded research projects will be posted publicly.*** Use only characters available on a standard QWERTY keyboard; spell out all Greek letters, other non-English letters, and symbols. Graphics are not allowed. ***Do not duplicate the technical abstract.***

Lay abstracts should address the points outlined below ***in a manner that will be readily understood by readers without a background in science or medicine.*** Avoid overuse of scientific jargon, acronyms, and abbreviations.

- Describe the scientific objective and rationale for the proposed project in a manner that will be readily understood by readers without a background in science or medicine.
 - State the [FY25 RCRP Focus Area\(s\)](#) the project addresses.
- Describe the ultimate applicability of the research.
 - What types of patients will it help and how will it help them?
 - What are the potential clinical applications, benefits, and risks? If the research is too basic for clinical applicability, describe the interim outcomes expected and their applicability to the field.
 - What is the projected time anticipated to achieve a clinically relevant outcome?
 - What are the likely contributions of this study to advancing rare cancers research?

- **Attachment 5: Statement of Work (three-page limit): Upload as “SOW.pdf”.** Refer to eBRAP for the [“Suggested SOW Format”](#).

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

For the Idea Development Award, refer to the [“Example: Assembling a Generic Statement of Work”](#) for guidance on preparing the SOW. Submit as a PDF.

- **Attachment 6: Impact Statement (one-page limit): Upload as “Impact.pdf”. *The Impact Statement should be written in plain language for lay persons.*** Explain in detail why the proposed research project is important, using the following headings:
 - State explicitly how the proposed work addresses a critical component of at least one of the [FY25 RCRP Focus Areas](#).
 - Explain why the proposed research project is important to understanding the causes and progression of the rare cancer and/or to realizing improvements in outcomes for people with rare cancers.
 - Describe how the proposed research will make an impact on rare cancer research and/or patient outcomes and how it benefits those affected by the rare cancer. The relevance of all research including basic research should relate to the outcomes.
 - If applicable, describe how the anticipated outcomes of the proposed study will make an impact in understanding health differences between sexes.
- **Attachment 7: Justification Statement (one-page limit): Upload as “Justification.pdf” (for programmatic review only).** Describe how the cancer or cancer subtype is defined as rare under the definition of RCRP (incidence rate of six or fewer persons per 100,000 per year), including citations on incidence rates, mortality, and status of disease research.
- **Attachment 8: Animal Research Plan (two-page limit) (If applicable): Upload as “AnimalResPlan.pdf”. *(Attachment 8 is only applicable and required for applications proposing animal studies.)*** If the proposed study involves animals, a summary describing the animal research that will be conducted must be included in the application. Consult the ARRIVE guidelines 2.0 (Animal Research: Reporting *In Vivo* Experiments) to ensure relevant aspects of rigorous animal research are adequately planned for and, ultimately, reported. The ARRIVE guidelines 2.0 can be found at <https://arriveguidelines.org/arrive-guidelines>. The Animal Research Plan may not be an exact replica of the protocol(s) submitted to the IACUC. The Animal Research Plan should address the following points to achieve reproducible and rigorous results for each proposed animal study:
 - Briefly describe the research objective(s) of the animal study. Explain how and why the animal species, strain, and model(s) being used can address the scientific objectives and, where appropriate, the study’s relevance to human biology.
 - Summarize the procedures to be conducted. Describe how the study will be controlled.
 - Describe the randomization and blinding procedures for the study, and any other measures to be taken to minimize the effects of subjective bias during animal treatment and assessment of results. If randomization and/or blinding will not be utilized, provide justification.
 - Provide a sample size estimate for each study arm and the method by which it was derived, including power analysis calculations.
 - Describe how data will be handled, including rules for stopping data collection, criteria for inclusion and exclusion of data, how outliers will be defined and handled, statistical methods for data analysis, and identification of the primary endpoint(s).

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- **Attachment 9: Representations (*Grants.gov submissions only*): Upload as “RequiredReps.pdf”.** All extramural applicants must complete and submit the [“Required Representations”](#) document that is available on eBRAP. For more information, see the General Application Instructions, Appendix 8, Section B, Representations.
 - **Attachment 10: Suggested Intragovernmental/Intramural Budget Form (*if applicable*): Upload as “IGBudget.pdf”.** If an [intramural DOD organization](#) will be a collaborator in the performance of the project, complete a separate budget for that organization using the [“Suggested Intragovernmental/Intramural Budget”](#) form that is available for download on eBRAP. Refer to the General Application Instructions, Section V.B.(c), for instructions and considerations.
- (c) Research & Related Personal Data:** For detailed instructions for Grants.gov submissions, refer to the General Application Instructions, Section IV.C.(a); and for eBRAP submissions, refer to the General Application Instructions, Section V.B.(a).
- (d) Research & Related Senior/Key Person Profile (Expanded):** Complete a Profile for each person who will contribute in a substantive, meaningful way to the scientific development or execution of the proposed research project. A biographical sketch and full description of each PI and senior/key person’s current/pending support information must be attached to the individual’s profile in the Attach Biographical Sketch and Attach Current & Pending Support fields, respectively.
- **Biographical Sketch:** Upload as “Biosketch_LastName.pdf”.
- The CDMRP staff and reviewers use biosketches to evaluate whether research teams are equipped with the expertise necessary to carry out the proposed research.
- Biosketches must conform to the federal-wide Biographical Sketch Common Form. To prepare their biosketch attachments, applicants may use the instructions provided in the General Application Instructions, Section IV.C.(b), for Grants.gov submissions; or General Application Instructions, Section V.B.(b), for eBRAP submissions; or may use a pdf form created in [SciENCv](#) for the National Institutes of Health (NIH) or the U.S. National Science Foundation (NSF).
- **Current/Pending Support:** Upload as “Support_LastName.pdf”.
- Current and pending (other) support information are used to assess the capacity or any [conflicts of commitment](#) that may impact the ability of the individual to carry out the research effort as proposed. The information also helps to assess any potential scientific and budgetary overlap/duplication with the project being proposed.
- Current and pending support documentation must conform to the federal wide format. To prepare their Current and Pending Support form, applicants may use the instructions provided in the General Application Instructions, Section IV.C.(b), for Grants.gov submissions; or General Application Instructions, Section V.B.(b), for eBRAP submissions; or may use a pdf form created in [SciENCv](#) for NIH or NSF.
- (e) Research & Related Budget:** For detailed instructions for Grants.gov submissions, refer to the General Application Instructions, Section IV.C.(c); and for eBRAP submissions, refer to the General Application Instructions, Section V.B.(c).
- **Budget Justification (no page limit):** For instructions for Grants.gov submissions, refer to the General Application Instructions, Section IV.C.(c), Section L; for eBRAP submissions, refer to General Application Instructions, Section V.B.(c), Budget Justification Instructions.

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

(f) Project/Performance Site Location(s) Form: For detailed instructions for Grants.gov submissions, refer to the General Application Instructions, Section IV.C.(d); and for eBRAP submissions, refer to the General Application Instructions, Section V.B.(d).

(g) Research & Related Subaward Budget Attachment(s) Form (if applicable, Grants.gov Submissions only): Refer to the General Application Instructions, Section IV.C.(e), for detailed information.

- **Extramural Subaward:** Complete the Research & Related Subaward Budget Form and upload it through Grants.gov.
- **Intramural DOD Subaward:** Complete a separate “[Suggested Intragovernmental/Intramural Budget Form](#)” for each intramural DOD subaward. Combine them into a single document, then upload the file to Grants.gov as an attachment named “IGBudget.pdf”.

4.4. Other Application Elements

- If recommended for funding, a data management plan compliant with Section 3.c, Enclosure 3, [DoD Instructions 3200.12](#) will be requested.
- The government reserves the right to request a revised budget, budget justification and/or additional information for applications recommended for funding.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | [Submission Requirements](#)
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

5. Submission Requirements

5.1. Location of Application Package

Download the application package components for HT942525RCRPIDA from [Grants.gov](#) or [eBRAP](#), depending on which submission portal will be used.

5.2. Unique Entity Identifier and System for Award Management

The applicant organization must be registered as an entity in the System for Award Management (SAM), [SAM.gov](#), and receive confirmation of an “Active” status before submitting an application through Grants.gov. Organizations must include the unique entity identifier (UEI) generated by the SAM in applications to this funding opportunity and maintain an active registration in the SAM at all times during which it has an active Federal award or an application under consideration. More information regarding SAM registration can be found in the General Application Instructions, Section IV.A.

5.3. Submission Instructions

The CDMRP uses two portal systems to accept pre- and full application submissions.

Application Submission Workflow

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | [Submission Requirements](#)
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

5.3.1. Pre-Application Submission

All pre-application components must be submitted by the PI through eBRAP.

During the pre-application process, eBRAP assigns each submission a unique log number. This unique log number is required during [the full application submission process](#). The eBRAP log number, application title, and all information for the PI, Business Official(s), performing organization, and contracting organization must be consistent throughout the entire pre-application and full application submission process. Inconsistencies may delay application processing and limit or negate the ability to view, modify, and verify the application in eBRAP. If any changes need to be made, the applicant should contact the eBRAP Help Desk at help@eBRAP.org or 301-682-5507 prior to the application submission deadline.

When starting the pre-application, PIs should ensure that they have selected the appropriate “Cancer Type” category. After selecting one of the offered Cancer Types, a textbox will appear where the applicant should enter a specific name for the cancer that will be studied (60-character limit). PIs should also select “age groups”.

Refer to the General Application Instructions, Section III.A, for considerations and detailed instructions regarding pre-application submission.

5.3.2. Full Application Submission

Grants.gov Submissions: Full applications from extramural organizations *must* be submitted through the Grants.gov Workspace. Refer to the General Application Instructions, Section IV, for considerations and detailed instructions regarding Grants.gov submissions.

eBRAP Submissions: Only intramural DOD organizations may submit full applications through eBRAP. Full applications from extramural organizations, including non-DOD federal organizations, received through eBRAP will be withdrawn. Refer to the General Application Instructions, Section V, for considerations and detailed instructions regarding eBRAP submissions.

5.3.3. Applicant Verification of Full Application Submission in eBRAP

Independent of submission portal, once the full application is submitted, it is transmitted to and processed in eBRAP; the transmission to eBRAP may take up to 48 hours. At this stage, the PI and organizational representatives will receive an email from eBRAP instructing them to log into eBRAP to review, modify and verify the full application submission. Verification is strongly recommended but not required. eBRAP will validate full application files against the specific program announcement requirements, and discrepancies will be noted in the “Full Application Files” tab in eBRAP. However, eBRAP does not confirm the accuracy of file content. It is the applicant’s responsibility to review all application components and ensure the proper ordering as specified in the program announcement. ***The Project Narrative and Research & Related Budget Form cannot be changed after the application submission deadline. If either the Project Narrative or the budget fails eBRAP validation or needs to be modified, an updated full application package must be submitted through the appropriate portal prior to the full application submission deadline.*** Other application components, including subaward budget(s) and subaward budget justification(s), may be changed until the end of the [application verification period](#). The full application cannot be modified once the application verification period ends.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | [Submission Requirements](#)
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

5.4. Submission Dates and Times

The pre-application and full application submission process should be started early to avoid missing deadlines. Regardless of submission portal used, all pre- and full application components must be submitted by the deadlines stipulated in this program announcement. There are no grace periods for deadlines; failure to meet submission deadlines will result in application rejection. ***The USAMRAA cannot make allowances/exceptions for submission problems encountered by the applicant.***

All submission dates and times are indicated in [Section 1, Basic Information](#) above.

5.5. Intergovernmental Review

Not applicable for this funding opportunity.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

6. Application Review Information

6.1. Application Compliance Review

Submitting applications that propose essentially the same research project to different funding opportunities within the same program and fiscal year is prohibited and will result in administrative withdrawal of the duplicative application(s).

While it is allowable to propose similar research projects to different programs within CDMRP or to other organizations, duplication of funding or accepting funding from more than one source for the same research is prohibited. See the [CDMRP's full position on research duplication](#).

Including classified research data within the application and/or proposing research that may produce classified outcomes or outcomes deemed sensitive to national security concerns, may result in application withdrawal. Refer to the General Application Instructions, Appendix 7, Section B.

Members of the FY25 RCRP Programmatic Panel should not be involved in any pre-application or full application including, but not limited to, concept design, application development, budget preparation, and the development of any supporting documentation, including personal letters of support/recommendation for the research and/or PI. Programmatic panel members **may** provide [letters](#) to confirm [PI eligibility](#) and access to laboratory space, equipment, and other resources necessary for the project if that is part of their regular roles and responsibilities (e.g., as Department Chair). **A list of the [FY25 RCRP Programmatic Panel members](#) can be found on the CDMRP website.**

Additional restrictions and associated administrative responses are outlined in [Section 9.2, Administrative Actions](#).

6.2. Review Criteria

6.2.1. Pre-Application Screening Criteria

To determine the technical merits of the pre-application and the relevance to the mission of the Defense Health Program and the RCRP, pre-applications will be screened based on the following criteria:

- **Justification:** Whether the proposed study falls under the [definition of RCRP rare cancers research](#).
- **Research:** How well the project's hypothesis, objectives, rationale, and specific aims are described. To what extent the methodology and experimental design is shown to support the hypothesis and/or objectives of the project.
- **Focus Area Relevance:** Whether the proposed project addresses at least one of the [FY25 RCRP Focus Areas](#) and to what degree it may lead to promising outcomes.
- **Impact:** Whether the project will lead to challenge current paradigms, look at existing problems from new perspectives, and/or exhibit other uniquely creative qualities. What potential impact these studies will have on the outcomes of people with rare cancers, and/or the understanding of rare cancers.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

6.2.2. Peer Review Criteria

To determine technical merit, all applications will be individually evaluated according to the following **scored criteria**, which are of equal importance:

- **Research Strategy and Feasibility**

- How well the scientific rationale supports the project and its feasibility as demonstrated by a critical review and analysis of the literature, relevant preliminary data, and logical reasoning.
- How well the hypotheses or objectives, aims, experimental design, methods, and analyses are developed, and are appropriate.
- How well the data collection and statistical analysis plan, rationale for the statistical methodology, and power analysis (if applicable), are described, and are appropriate.
- If applicable, whether data will be appropriately reported and documented to support a regulatory filing with the FDA or international regulatory agency.
- If animal studies are included, how well they are designed in accordance with the [ARRIVE guidelines 2.0](#) to achieve reproducible and rigorous results, including the choice of model and the endpoints/outcomes to be measured.
- If human subjects or human biological samples will be used, how well the plan for the recruitment of subjects or the acquisition of samples is justified and appropriate to accomplish the proposed work.
- If clinical research is proposed, whether the strategy for the inclusion of women and minorities and distribution of proposed enrollment are appropriate for the proposed research.
- How well the application acknowledges potential problems and addresses alternative approaches.
- If applicable, whether the strategy for considering sex as a biological variable is appropriate to the objectives of the study or whether the justification for a single sex study is sufficiently strong.

- **Impact**

- How explicitly the proposed work addresses a critical component in at least one of the [FY25 RCRP Focus Areas](#).
- How well the application articulates why the proposed research project is important to understanding causes and progression of the rare cancer and/or realizing improvements in outcomes for people with rare cancer.
- To what extent the proposed research will make an impact on rare cancer research and/or patient outcomes and how it will benefit those affected by the cancer.
- If the research is basic in nature, how well potential benefit to those affected by the cancer is described.
- If applicable, to what extent the anticipated outcomes of the proposed study will make an impact in understanding health differences between sexes.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

- **Personnel**

- The degree to which the levels of effort by the PI and other key personnel are appropriate to ensure the success of this research effort.
- How well the PI's record of accomplishment demonstrates their ability to accomplish the proposed work.

In addition, the following criteria will also contribute to the overall evaluation of the application, but will not be individually scored and are therefore termed **unscored criteria**:

- **Budget**

- Whether the budget is appropriate for the proposed research.

- **Environment**

- How well the scientific environment supports research requirements and resources (including collaborative arrangements).
- To what degree the quality and extent of organizational support are appropriate.
- If applicable, to what degree the intellectual and material property plan is appropriate.

- **Application Presentation**

- To what extent the writing, clarity, and presentation of the application components influence the review.

6.2.3. Programmatic Review

To make funding recommendations and select the application(s) that, individually or collectively, will best achieve the program objectives, the following criteria are used by programmatic reviewers:

- Ratings and evaluations of the peer reviewers.
- Relevance to the priorities of the FY25 RCRP, as evidenced by the following:
 - Adherence to the intent of the funding opportunity.
 - Program portfolio composition.
 - Relative impact.
 - Relevance of the study to the FY25 [RCRP definition of rare cancers](#).

6.3. Application Review and Selection Process

6.3.1. Pre-Application

Following the pre-application screening, PIs will be notified as to whether they are invited to submit full applications. The estimated date when PIs can expect to receive notification of an invitation to submit a full application is indicated in [Section 1, Basic Information about the Funding Opportunity](#). No feedback (e.g., a critique of the pre-application's strengths and weaknesses) is provided at this stage. Because the invitation to submit a full application is based on the contents of the pre-application, investigators should not change the title or research objectives after the pre-application is submitted.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

6.3.2. Full Application

All applications are evaluated by scientists, clinicians, and consumers in a two-tier review process. The first tier is **peer review**, the evaluation of applications against established criteria to determine technical merit, where each application is assessed for its own merit, independent of other applications. The second tier is **programmatic review**, a comparison-based process in which applications with high scientific and technical merit are further evaluated for programmatic relevance. Final recommendations for funding are made to the Commanding General, USAMRDC. ***The highest-scoring applications from the first tier of review are not automatically recommended for funding. Funding recommendations depend on various factors as described in [Section 6.2.3, Programmatic Review](#).*** Additional information about the two-tier process used by the CDMRP can be found on the [CDMRP website](#).

Funding of applications received is contingent upon the availability of federal funds for this program, the number of applications received, the quality and merit of the applications as evaluated by peer and programmatic review, and the requirements of the government. Funds to be obligated on any award resulting from this funding opportunity will be available for use for a [limited time period](#) based on the fiscal year of the funds.

6.4. Risk, Integrity, and Performance Information

Prior to making an assistance agreement award where the federal share is expected to exceed the simplified acquisition threshold, as defined in 2 CFR 200.1, over the period of performance, the federal awarding agency is required to review and consider any information about the applicant that is available in SAM.

An applicant organization may review SAM and submit comments on any information currently available about the organization that a federal awarding agency previously entered. The federal awarding agency will consider any comments by the applicant, in addition to other information in the designated integrity and performance system, in making a judgment about the applicant's integrity, business ethics, and record of performance under federal awards when determining a recipient's qualification prior to award, according to the qualification standards of the Department of Defense Grant and Agreement Regulations (DoDGARs), Section 22.415.

In accordance with National Security Presidential Memorandum and all associated laws, all fundamental research funded by the DoD must be evaluated for affiliations with foreign entities. All applicant organizations must disclose foreign affiliations of all key personnel named on applications. Failure to disclose foreign affiliations of key personnel shall lead to withdrawal of recommendations to fund applications. Applicant organizations may be presented with an opportunity to mitigate identified risks, particularly those pertaining to influence from foreign entities specified in law. Implementation of mitigation discussions and utilization of the [OUSD R&E Decision Matrix](#) must decrease risk of foreign influence in accordance with the above-mentioned laws and guidance prior to award.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
Application Review Information | [Federal Award Notices](#) | Post-Award Requirements | Other Information

7. Federal Award Notices

For each full application received, the organizational representative(s) and PI will receive email notification when the funding recommendations are posted to eBRAP, typically within 6 weeks after programmatic review. At this time, each PI will receive a peer review summary statement on the strengths and weaknesses of the application and an information paper describing the application receipt and review process for the RCRP award mechanisms. The information papers and a list of organizations and PIs recommended for funding are also posted on the program's page within the CDMRP website.

If an application is recommended for funding, after the email notification is posted to eBRAP, a government representative will contact the person authorized to negotiate on behalf of the recipient organization.

Only an appointed USAMRAA Grants Officer may obligate the government to the expenditure of funds to an extramural organization. No commitment on the part of the government should be inferred from discussions with any other individual. ***The award document signed by the Grants Officer is the official authorizing document (i.e., assistance agreement).***

Intra-DOD obligations of funding will be made according to the terms of a negotiated Inter-Agency Agreement and managed by a CDMRP Science Officer.

Funding obligated to ***intragovernmental and intramural DOD organizations*** will be sent through the Military Interdepartmental Purchase Request (MIPR), Funding Authorization Document (FAD), or Direct Charge Work Breakdown Structure processes. Transfer of funds is contingent upon appropriate safety and administrative approvals. Intragovernmental and intramural DOD investigators and collaborators must coordinate receipt and commitment of funds through their respective Resource Manager/Task Area Manager/Comptroller or equivalent Business Official.

An organization may, at its own risk and without the government's prior approval, incur obligations and expenditures to cover costs up to 90 days before the beginning date of the initial budget period of a new award. For additional information about pre-award costs for Grants.gov submissions, refer to the General Application Instructions, Section I.D, Pre-Award Costs section; and for eBRAP submissions, refer to the General Application Instructions, Section 1.D, Pre-Award Costs section.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | [Post-Award Requirements](#) | Other Information

8. Post-Award Requirements

8.1. Administrative and National Policy Requirements

Applicable requirements in the DoDGARs found in 32 CFR, Chapter I, Subchapter C, and 2 CFR, Chapter XI, apply to grants and cooperative agreements resulting from this program announcement.

Refer to the General Application Instructions, Appendix 7, for general information regarding administrative requirements.

Refer to the General Application Instructions, Appendix 8, for general information regarding national policy requirements.

Refer to full text of the latest [DoD R&D Terms and Conditions](#) and the [USAMRAA Research Terms and Conditions: Addendum to the DoD R&D Terms and Conditions](#) for further information.

If there are technical reporting requirement delinquencies for any existing CDMRP awards at the applicant organization, no new awards will be issued to the applicant organization until all delinquent reports have been submitted.

Applications recommended for funding that involve animals, human data, human specimens, human subjects, or human cadavers must be reviewed for compliance with federal and DOD animal and/or human subjects protection requirements and approved by the USAMRDC Office of Human and Animal Research Oversight (OHARO), prior to implementation. This administrative review requirement is in addition to the local Institutional Animal Care and Use Committee (IACUC), Institutional Review Board (IRB), or Ethics Committee (EC) review. Refer to the General Application Instructions, Appendix 6, for additional information.

8.2. Reporting

Annual technical progress reports as well as a final technical progress report will be required. Annual and final technical reports must be prepared in accordance with the Research Performance Progress Report (RPPR).

The Award Terms and Conditions will specify whether additional and/or more frequent reporting is required.

Award Expiration Transition Plan: An [Award Expiration Transition Plan](#), using the template available on eBRAP, must be submitted with the final progress report.

PHS Inclusion Enrollment Reporting (Required for research proposing clinical research and/or clinical trials): Enrollment reporting on the basis of sex, race, and/or ethnicity will be required with each annual and final progress report. The [PHS Inclusion Enrollment Report](#) is available on eBRAP.

Awards resulting from this program announcement may entail additional reporting requirements related to recipient integrity and performance matters. Recipient organizations that have federal contract, grant, and cooperative agreement awards with a cumulative total value greater than \$10M are required to provide information to SAM about certain civil, criminal, and administrative proceedings that reached final disposition within the most recent 5-year period and that were connected with performance of a federal award. These recipients are required to disclose, semiannually, information about criminal, civil, and administrative proceedings as specified in the applicable Representations (see General Application Instructions, Appendix 8, Section B).

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | [Post-Award Requirements](#) | Other Information

8.3. Additional Requirements

Unless otherwise restricted, changes in the PI or organization will be allowed on a case-by-case basis, provided the intent of the award mechanism is met.

An organizational transfer of an award will not be allowed in the last year of the (original) period of performance or any extension thereof.

Refer to the General Application Instructions, Appendix 7, Section H, for general information on organization or PI changes.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements

9. Other Information

9.1. Program Announcement and General Application Instructions Versions

Questions related to this program announcement should refer to the program name, the program announcement name, and the program announcement version code CD25_01c. The program announcement numeric version code will match the General Application Instructions version code CD25_01.

9.2. Administrative Actions

After receipt of pre-applications or full applications, the following administrative actions may occur.

9.2.1. Rejection

The following will result in administrative rejection of the pre-application:

- Preproposal Narrative is missing.

The following will result in administrative rejection of the full application:

- Project Narrative is missing.
- Budget is missing.
- Submission of an application for which a letter of invitation was not issued.

9.2.2. Modification

- Pages exceeding the specified limits will be removed prior to review for all documents.
- Documents not requested will be removed.

9.2.3. Withdrawal

The following may result in administrative withdrawal of the full application:

- A member of the [FY25 RCRP Programmatic Panel](#) is named as being involved in the development or execution of the research proposed or is found to have assisted in the pre-application or application processes.
- Applications that include names of personnel from either of the CDMRP peer or programmatic review companies for which conflicts cannot be adequately mitigated. For FY25, the identities of the peer review contractor and the programmatic review contractor may be found on the [CDMRP Website](#).
- Personnel from applicant or collaborating organizations are found to have contacted persons involved in the review or approval process to gain protected evaluation information or to influence the evaluation process.
- Applications from extramural organizations, including non-DOD federal agencies, received through eBRAP.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | [Other Information](#)

- Applications submitted by a federal government organization (including an intramural DOD organization) if: (a) the organization cannot accept and execute the entirety of the requested budget in FY25 funds; and/or (b) the federal government organization cannot coordinate the use of contractual, assistance, or other appropriate agreements to provide funds to collaborators.
- The application fails to conform to this program announcement description.
- Inclusion of URLs, with the exception of links in References Cited and Publication and/or Patent Abstract sections.
- Application includes research data that are classified and/or proposes research that may produce classified outcomes, or outcomes deemed sensitive to national security concerns.
- Submission of the same research project to different funding opportunities within the same program and fiscal year.
- The PI does not meet the eligibility criteria.
- The invited application proposes a different research project than that described in the pre-application.
- The application does not address at least one of the [FY25 RCRP Focus Areas](#).
- The cancer or cancer subtype proposed in the application does not meet the [FY25 RCRP definition of rare cancers](#).
- A clinical trial is proposed.

9.2.4. Withhold

Applications that appear to involve research misconduct will be administratively withheld from further consideration pending organizational investigation. The organization will be required to provide the findings of the investigation to the USAMRAA Grants Officer for a determination of the final disposition of the application.
