## HCU Research Grants

preliminary data that would facilitate more substantial funding from federal agencies, foundations, or corporations.

## Grants Process

Calls for Expressions of Interest (EOI) are issued on a periodic basis (the goal is every 18 months) and are communicated through relevant organizations (e.g. SIMD, SSIEM, GMDI) and posted on our website.

### EOI:

- Researchers are asked to submit an Expression of Interest (EOI) Application, including a high-level description of the proposed project, potential budget range, and any conflict of interests with SAB members. EOIs are reviewed by the Global Scientific Advisory Board (SAB) and applicants are notified whether they are invited to submit a full Grant Application.
- Grant Applications are reviewed and scored by the SAB and up to 2 independent reviewers who are considered experts in the specific scientific approach being recommended. Based on these evaluations, the SAB then recommends which proposal(s) are recommended for funding and the HCU Network(s) then make the final decision based on available funding.
- Most current grants are awarded at the level of \$50000 USD, though exceptions can be made depending on the specific project.
- Researchers must agree to submit an interim project update halfway through the grant period (which is usually 12 months) and a final report at the end of the project. Awardees may also be asked to present results to the SAB and/or to the patient community at periodic meetings or webinars, and to publish the results.

## 2026 EOI: HCU Network America issued a call in March 2026 for Expressions of Interest (EOI) for research grants to address one of the following priorities:

- Novel proposals for treatment and prevention of clinical manifestations for Classical Homocystinuria and/or;
- Novel proposals for treatment and prevention of clinical manifestations for cobalamin G, a Methionine synthase deficiency

By exploring novel mechanisms to obtain proof of concept to enable progression to clinical trials.

EOI applications can be found here. 2026 HCU Network America Grant Application - Fill out form (<https://forms.office.com/r/5LaPtNQxHz>)

## Important Dates:

- EOI deadline for submission: May 31, 2026
- Notification of successful EOI: July 1, 2026
- Deadline for full applications: September 1, 2026
- Funding decisions will be made by November 1, 2026

---

In 2026, the SAB for classical homocystinuria and remethylation disorders was combined into one functioning for all homocystinuria grants: streamlining the global grants process and providing one cohesive program for the organization.
