**Hungarian - Israeli Scientific Research Program  
CALL FOR JOINT PROJECT PROPOSALS  
For 2025-2027  
Deadline for Submissions: 16/9/2024**

Within the framework of the Hungarian-Israel agreement on scientific cooperation, the National Research, Development and Innovation Office of Hungary (NRDI), and the Ministry of Innovation, Science and Technology of the State of Israel (MOST) have decided to provide financial support and are glad to invite researchers and scientists to submit joint proposals for research projects carried out jointly by researchers from both countries.

The aim of this program is to support the development of scientific and technological cooperation between Hungarian and Israeli researchers and to strengthen the scientific partnership between research groups from both countries, by establishing bilateral research networks, enhancing research cooperation and promoting the exchange of knowledge between Hungarian and Israeli scientists.

The joint research shall focus on one of the main areas of cooperation and its subtopics as detailed in Section A and concentrate on applied research which could lead to technological applicability and the development of new products (Technology Readiness Level [TRL] 2-4).

Qualifying scientific applicants in this framework may receive research grants from NRDI and MOST, respectively, according to the applicable national funding procedures, regulations, and the requirements as detailed in this Call.

**A. MAIN AREAS OF COOPERATION**

Hungarian-Israeli research teams are hereby invited to submit joint proposals for applied research projects in any of the following areas:

**1. Supporting preventive, curative and care systems to maintain healthy living  
within the focus area for the following topic areas:**

- a) innovation in healthy living and disease prevention,
- b) improving the quality of life in old age,
- c) innovative diagnostic and curative interventions and therapies (drug discovery, immunology, development of medical devices and instruments).

**2. Supporting the green transition and the development of a circular economy  
within the focus area for the following topic areas:**

- a) agricultural innovation and water management, efficient protection against natural disasters and extreme weather conditions,
- b) increasing energy efficiency, accelerating the transition to clean energy, exploitation of indigenous energy sources,
- c) sustainable and smart mobility.

**3. Supporting the digital transition of the economy and society within the focus  
area for the following topic areas:**

- a) artificial intelligence, quantum technology,
- b) smart grids, autonomous systems

## **B. MODE OF COOPERATION**

Cooperation will take the form of planning and performing joint research as well as conducting mutual visits between laboratories, research centers and/or scientific institutes for the purpose of facilitating the research. Each joint research team may submit only one project within this program.

Cooperation may also take the form of:

- a) Joint research activities in which interdependent subprojects of a single project are conducted in Hungarian and Israeli laboratories/research centers/scientific institutes;
- b) Complementary methodological approaches to a common problem;
- c) Joint use of research facilities, materials, equipment and/or services by cooperating scientists;
- d) Mutual visits between laboratories/research centers/scientific institutes for the purpose of facilitating the research.

## **C. LEVEL OF FUNDING AND DURATION OF PROJECTS**

It is the intention of the Parties to fund research proposals selected hereunder for a term of 3 years and contracts will be signed accordingly. However, funding shall be approved annually, with the funding for each consecutive year to be approved in accordance with the provisions of the research contracts and protocols in each country.

The expected number of supported projects is **up to 7 joint projects**. The final number of projects to be funded will be determined based on such factors as merits of the proposals upon scientific evaluation, and budgetary considerations.

The total maximum funding for all research projects approved under this Call is 4 million ILS for the Israeli side (equivalent to 1 million Euros), for a 3-year period. On the Hungarian side, the total maximum funding for all research projects approved under this Call is 1 million Euros, for a 3-year period.

**The maximum funding for each single project will be up to 568,000 ILS for the Israeli side (equivalent to 142,000 Euros, the Euro value is 4 ILS for this call), for a 3-year period. On the Hungarian side, the maximum funding for each single project will be up to 142,000 Euros, for a 3-year period.**

In accordance, research projects should be planned on a 3-year basis beginning approximately in the first quarter of 2025. Contracts will be signed accordingly in each country.

**Funding for the approved projects depends on the availability of funds and the approval of the State budget in each country.**

## **D. ELIGIBILITY**

Proposals must meet the following preconditions. Proposals not meeting the preconditions will be automatically rejected and will not be passed on to the evaluation.

1. Projects must be conducted by collaborating Hungarian and Israeli scientific research teams.
2. Proposals must be for research projects in one of the main areas of cooperation and its subtopics as detailed in Section A, as well as meet the required Technology Readiness Level (TRL2-4).
3. Each joint research team must be led by a Principal Investigator (PI) from each country.
4. The PI on each side must be affiliated with an academic institution or a research institute ("Affiliated Institution"), or be a professor emeritus who continues working on research in affiliation with the Affiliated Institution. An Affiliated Institution is determined in each country as follows:

**In Israel:**

- a) An accredited Institution of Higher Education, according to the Council for Higher Education Law, 5718-1958; or
- b) A Research Institute which is a nonprofit organization, a government company or a governmental unit. For the purposes of this Call, a "Research Institute" in Israel is a research institute whose main activity is the advancement of cutting-edge scientific knowledge, which possesses appropriate infrastructure and equipment, which employs researchers who, inter alia, publish articles related to their research in leading scientific journals, and who present their research at international symposia.

**In Hungary:**

Eligible participating institutions:

From among the not-for-profit and other non-profit-making organisations those who have GFO code 551,552,559, 562,563,569,599, or 931, which have been State- recognised by Annex 1 of Act CCIV of 2011 on the national higher education, designated as not State-owned higher education institutions and are considered as research and knowledge transfer organisations according to Article 2 (83) of Decree No. 651/2014/EU of the European Commission.

From among the budget entities and entities managed by budgetary rules those who have GFO code 311,312,322,341,342,381, or 382, which are considered research-knowledge transfer organisations according to Article 2 (83) of Decree No. 651/2014/EU of the European Commission

**Special eligibility provisions for Israeli Researchers:**

1. In compliance with MOST's Procedures Regarding Scientific Projects Funded by MOST ("[MOST Regulations](#)"), an Israeli PI that has or will have an active grant from any of MOST's international cooperation programs, whose funding will be concurrent to the funding of this program, is not eligible to apply. No parallel funding is allowed in the international cooperation program. A researcher who is not eligible to submit a proposal as PI due to an active grant may submit one additional proposal in the international cooperation program as Associated -PI, if he does not have an active grant in the international program in which he acts as Associated-PI.

2. A researcher who has submitted a proposal for any MOST international cooperation call for funding in the 2025 calendar year, **may not submit another proposal for any other MOST international cooperation call for funding in 2025.**
3. Researchers should be advised that after a proposal has been submitted, the status of the members of the research team as Principal Investigator-PI and/ or Associated-PI may not be changed for the purpose of compliance with the eligibility requirements listed above. It will be clarified that, the aforementioned limitations regarding changing the status of the members of the research team include the addition of a PI and/ or Associated-PI who, at the time of submission, was defined as an external consultant or were not listed in the proposal and/or research group.

**Special eligibility provisions for Hungarian teams:**

Personnel costs for Hungarian researchers: participating researchers' salary max 2 000 000 HUF/month, participating technicians' salary max. 800 000 HUF per month

**E. SUBMISSION OF PROPOSALS**

Project proposals must be prepared and carried out jointly by the Israeli and the Hungarian project partners and should be submitted simultaneously to NRDI in Hungary and to MOST in Israel (In Israel by the PI and the Affiliated Institution).

Each project proposal will include the **joint research part** (as detailed in part H) that must be **identical** for both project partners and should be written **in English**.

**Deadline for applications: 27/11/2024;**

- **in Israel until 15:00**
- **in Hungary until 16:00**  
(Local time in each country)

**Proposals will not be accepted under any circumstances after the said date.**

**Further submission instructions for Israeli research teams:**

- a) The Israeli PI shall submit the proposal through the Science Forefront system, at <https://kf.most.gov.il>  
In order to apply for the first time, the applicant needs to fill an "account request" at the Science Forefront system. The request should be approved by the Research Authority of the Affiliated Institution. Once approved, the applicant will be notified by email that the account is active. The approval process may take time and therefore should be done well in advance of the application deadline.
- b) **Deadline for researchers' submissions:** The PI must pre-submit the proposal in English via the Science Forefront system **by 20/11/2024 at 15:00 local time (Israel). The online system will be closed for submissions after the said date and hour and no submissions will be accepted after that time. Israeli**

**researchers who have not submitted their proposals by 20/11/2024 at 15:00 local time (Israel) will not be allowed to submit their proposal.**

- c) A proposal that has been submitted can be edited by the PI, in coordination with the Affiliated Institution, until the final joint submission deadline.
- d) The Affiliated Institution must submit the proposal not later than by the final deadline on **27/11/2024 at 15:00 local time (Israel time)**. Proposals that are not submitted by the Affiliated Institution through the Science Forefront system by this time, **will not be accepted**.
- e) Please be advised that as technical problems are possible, and the submission process may take a significant amount of time, **Therefore, it is strongly recommended to fulfil the above steps well in advance of the applications deadlines.**

**Further submission instructions for Hungarian research teams:**

- a) The Hungarian PI needs to submit the proposal through the EUPR system
- b) **The application needs to be submitted with identical content on both the Israeli and the Hungarian part.**

**For both countries:**

A valid project application consists of the appropriated application form **duly filled in and signed**, together with all the necessary application documents required from each side of a joint research team as detailed above, submitted respectively to NRDI in Hungary and to MOST in Israel. **If the applications are not duly received both in Hungary and in Israel by the dates indicated above and in accordance with the submission instructions, the proposal will be rejected in both countries.**

**F. FUNDED EXPENSES**

Funding provided by this Call is intended to enhance joint collaboration between Hungarian and Israeli researchers. Therefore, funding may be assigned to costs related to support of the collaboration vectors, such as costs related to the bilateral nature of the project (travel expenses of the researchers, scientific meetings, etc.) as well as to defray costs incurred by the approved research projects (personal costs, disposables, publication costs, etc.).

In any case, each budget item or expenditure for which reimbursement is requested must conform to the respective national rules of each applicant.

Participating researchers are encouraged to plan visits to their counterparts' institutions and labs, given that such visits are an integral part of the research collaboration. International travel costs and in-country living expenses of visiting scientists, including accommodation, per diem and any other relevant expenses for each visiting scientist, should be included in their project's budget. In this regard when preparing the budget for each team, please note that each side funds their own travel expenses and should budget accordingly. Funding provided under this Call may only be used for visits taking place in Hungary or Israel; visits to third countries are not eligible for financing by project funds.

**Further funding provisions for the Israeli side:**

Please see full funding provisions on MOST [Procedures Regarding Scientific Projects](#) Funded by MOST ("[MOST Regulations](#)"). All activities and funding pursuant to this Call must be in accordance with MOST Regulations unless otherwise specified.

**G. RENEWAL OF FUNDING**

Renewal of project funding for a subsequent year is subject to the submission of the relevant documents and reports, separately by the Hungarian and Israeli project partners. These documents must be submitted to NRD and to MOST (by PI in Israel) within the deadlines set by each country's regulations.

**H. INSTRUCTIONS FOR WRITING PROJECT PROPOSALS**

**Joint research part** of each project proposal should be written **in English** and must be **identical** in both countries. This part should be submitted using a unified form, available at each side's websites.

Font: Times New Roman 11; line spacing: 1.5.

1. **Joint research part** of the project proposal should be up to 10 pages, including figures (not including bibliography) and should include the following sections:
  - a) Abstract (max 1500 characters including spaces)
  - b) Scientific background and state of the art: Scientific background, including an overview of the field of research around the world, noting the relative advantage of the proposed research;
  - c) Research objectives and specific aims: The purpose of the research;
  - d) Detailed description of the proposed research: Working hypothesis, research program and methods, and preliminary results;
  - e) Significance, importance, innovation, and potential benefits of the proposed research;
  - f) Applicability: Expected uses and future technological development;
  - g) Cooperation vectors between the research groups: Proposed modes of cooperation, their benefits and how they contribute to the research;
  - h) Work plan and Gantt: The work plan will be summarized in a schedule diagram. A verbal description of the work steps must be included. Each stage will be defined by a start time and an end time.

Joint research part of the project proposal will be accompanied by the mandatory documents. These **attachments** will be **in English** and be as follows:

2. **Bibliography**: A complete bibliographic list should be attached to the proposed research. The five most relevant items for the proposed research should be marked with an asterisk.
3. **CV**: A short CV for each researcher involved in the research of up to 2 pages each, including: personal statement (brief description of why the investigator is well-suited for the role on the proposed project); list of ongoing and completed research projects from the last three years that the investigator wishes to highlight; citation of up to

- five publications or research products that highlight the investigator's experience and qualifications for the proposed project; positions, scientific appointments, and honors.
4. **Letter of intent** from the project partners in both countries affirming their intent to collaborate on the proposed research.
  5. **Additional authorizations needed depending on the type of research** (e.g. Helsinki Committee, animal experiments) shall be submitted along with the proposal. In case the required authorization is still not available at the time of submission, a statement in free text should be attached including the researcher's commitment that if their proposal is approved, the required authorization will be submitted as soon as possible.
  6. **In Israel only** (Additional data for the Science Forefront system):
    - a) Short abstract (up to 1500 characters in Hebrew and English).
    - b) Applicability up to 1000 characters in Hebrew.
    - c) Adapting the research to the sub-themes defined in the call (up to 500 characters in Hebrew/English).
    - d) **Budget request** - enter the requested budget in ILS.  
The budget of the researcher from abroad must be entered in a general way in the section designated for this purpose.
    - e) Please specify 5 researchers from outside Israel with expertise in the field of the proposal, who could serve as potential external reviewers (with no conflict of interest: Joint research, from the same department or supervisor/student relationship).
    - f) Do not add additional documents beyond what is specified above and in the attached guidelines for submission to the Science Forefront system.

## **I. PROPOSALS REVIEW**

In each country national evaluation of the project proposals will be conducted. The national evaluation will be carried out according to the national regulation by the national experts that will evaluate the project proposals based on the common evaluation criteria that are as follows:

The proposals will be evaluated based on the following criteria:

1. **Scientific level (20%)**: scientific and technological excellence, the scientific basis of research;
2. **Innovation (20%)**: the degree of innovation and originality of the proposed research in comparison to the state of the art;
3. **Methodology (20%)**: the extent to which the proposed method of conducting the research is qualitative, feasible and consistent with the proposed objectives;
4. **Applicability potential (30%)**: the research contribution to the development of new applied scientific and technological advancement in the field;

5. Capability of the researcher and level of bi-national cooperation (10%): based on the experience, previous achievements and skills of the researchers and level of collaboration and compatible skills of partners.

Afterwards, NRDI and MOST will establish a Joint Hungarian-Israeli Scientific Committee, composed of 3-7 expert scientists from the academia and industry from each country ("The Committee"). After the national evaluation the Committee will consider the results of the national evaluation and on their basis will formulate recommendations as to which proposals will be funded.

## **J. CONTRACTS, PAYMENTS AND REPORTS**

### **1. Contracts:**

Upon approval of a particular project proposal, separate contracts will be signed in Hungary and Israel, between NRDI and the Affiliated Institution of the Hungarian PI and between MOST and the Affiliated Institution of the Israeli PI.

### **2. Payments:**

Payments will be made by NRDI and MOST to the Affiliated Institution of each Principal Investigator, respectively, in keeping with the provisions of the contracts referred to above, according to the regulations and practices in force in each country.

### **3. Final reports:**

Within three months of the conclusion of the project, Israeli PIs must submit a final report in English to MOST through the Science Forefront system, at <https://kf.most.gov.il>. It should include a final scientific and financial report covering the work and cooperation carried out during the entire three-year project period, in accordance with the contract's requirements.

#### **Hungarian reporting requirements:**

Each PI and each Affiliated Institution is accountable to MOST or NRDI, respectively, for the execution of the project.

## **K. MISCELLANEOUS PROVISIONS**

### **For both sides:**

It is strongly recommended that the Hungarian and Israeli research teams and their Institutions enter into an agreement regarding Intellectual Property rights from the output of the financed project prior to the commencement of the collaborative activities.

### **For Israeli Applicants:**

All procedures and activities under this Call or the projects approved hereinafter, including the eligibility of Affiliated Institutions via which applications must be filed and the eligibility of PI's and Associated-PI's, are subject to MOST Regulations and to MOST Standard Contract for Scientific Projects ("[Standard Terms](#)").

Applicants are required to familiarize themselves with the Standard Terms before filing an application under this Call. Filing an application constitutes a declaration that the applicant has done so and agrees to be bound by the Standard Terms' provisions thereof.

Please note any updates made to the standard terms made before the final submission date will apply to proposals submitted to this Call.

**For Hungarian Applications:**

**L. ADDITIONAL INFORMATION**

Additional information can be obtained as follows:

**Israel:**

**On administrative matters:**

Israeli researchers should consult administrative matters directly with the Research Authority at their Affiliated Institution. The Institution will contact the Ministry in case of necessity.

**On scientific matters:**

**Dr. Fadil Salih**

Scientific Director, Physics and Applied Mathematics, MOST

Tel: +972 (2)-5411816

Email: [Fadils@most.gov.il](mailto:Fadils@most.gov.il)

**Representative of the Division of International Relations for this CFP:**

**Mr. Zeev Shapira**

Director for Central-Eastern Europe

Division for International Relations, MOST

Tel: + 972 (54) 6317475

Email: [ZeevS@most.gov.il](mailto:ZeevS@most.gov.il)

**MOST website:** [www.most.gov.il](http://www.most.gov.il)

**Hungary:**

**On administrative matters:**

Hungarian researchers should consult administrative matters directly with the Research Authority at their Affiliated Institution. The Institution will contact the National Research, Development and Innovation Office in case of necessity.

**On scientific matters:**

**Representative of the National Research, Development and Innovation Office (NRDIO)**

**Ms. Borbala Schenk**

Head of Department

Department for International Affairs
