

Taking April 2016 applications forward to the April 2017 grant round.

Log in to your portal account and select 'My Applications' from the left-hand list.

The screenshot shows the 'Grant System' interface for Worldwide Cancer Research (formerly known as AICR). The page is titled 'Grant System' and 'CC Grant Tracker'. A red bar at the top indicates the user is logged in. The main content area is titled 'My Applications' and states 'You have 1 application awaiting submission.' Below this, there is a 'New Application' button. A table lists the application details:

| Reference | Title | Last Updated | Status |
|------------------|---------------|---------------------|-------------------------------------|
| Reference Number | Project Title | 17/05/2016 10:11:29 | Round Closed, extension has expired |

You will see your April 2016 application has been rolled back to the awaiting submission stage. If you click on the green arrows on the right-hand side of the page, a new 'Details' page will load and there will be an option to 'Re-apply' at the bottom of this page. Using the 'Re-apply' function will load the 'Re-apply' page, shown in the image below.

Please note that it is your decision whether or not you modify your existing form or submit a completely new application using the 'New Application' button at the top of the 'My Applications' page (as shown above).

Clicking on 'Apply' (as shown above) will take you to the application pages you are already familiar with. There you can use the normal 'Edit' function to amend and update your existing application form. Submission of applications will follow the regular approval process and needs to be completed before the submission deadline (Friday 21st April 2017 at 17:00 British Summer Time).
