

The mission of the RTW Charitable Foundation is to power rare-disease research, medical innovation, and humanitarian collaborations to improve the health of underserved communities. The focus of our Research Grants is to support work aimed at developing therapeutics for ultrarare diseases. We are proud to announce our Request for Proposals for the 2023 RTWCF Research Grant Cycle.

Criteria and Eligibility

Our 2023 Grants will provide up to \$150,000 for one year to support translational projects that bridge the gap between proof-of-concept studies in animal models and preclinical safety/toxicology studies. Our Request for Proposals is open to:

Any scientists or clinicians affiliated with a higher-education research institution or healthcare organization anywhere in the world (projects led by patient organizations are also
