

# ULF RESEARCH GRANT PROGRAM

[Home](#) » [Research](#) » ULF Research Grant Program

Each year, the ULF welcomes researchers from around the world to submit their research project proposals for funding consideration.

**Applications will be accepted from September 1st through October 13<sup>th</sup>, 2025.**

Applications involving leukodystrophy research with budgets up to \$30,000 (plus up to 10% indirect costs) are welcome to apply. The ULF Medical and Scientific Advisory Board will review applications for scientific merit, feasibility, and likelihood to advance the field. Funding will be awarded by the end of December for utilization during the following calendar year.

To apply: Complete the Research Grant Application and submit it electronically to [office@ulf.org](mailto:office@ulf.org) by 11:59 pm on October 13<sup>th</sup>.

Funded investigators will be invited to present their research at a future ULF Scientific Symposium in the Chicago, Illinois area.

\$ 838,452  
in grant money  
awarded to date

33 Projects Supported

Global Impact, projects  
are funded domestically & internationally

The ULF began funding research projects in 2010. So far, the ULF has funded over \$838,000 in leukodystrophy research projects. Thanks to a generous donation from Hugo and Ann Moser, we were able to establish an endowment that generates the funds that we allocate for research every year.

If you make a donation to the foundation that is “**research restricted**,” this is where your funds go! Every year, we take a look at how much has been donated to the research endowment (general or specific leuko) to guide where the funds accurately.

\*Project funds with an asterisk designate a project that was funded with donations specifically allocated for that type of leukodystrophy.
