ACTIVE CALLS AND DEADLINES FOR RESEARCH PROJECTS

We aim to make the final decision at our Trustees' meeting around five months after the deadlines below. Please ensure you visit our [research page](#) and [information for applicants page](#) to get a good feel for the type of research in which we are interested.

We like to keep our research calls as open as possible to ensure we are keeping on top of the most relevant research happening in each area, but we also have specific funding priorities as indicated below. Please visit our '[Should I Apply?](#)' page for more information regarding the type of applications we hope to fund.

Unless otherwise stated, for all of the below deadlines projects should adhere to the research expression of interest application guidelines and fit within the maximum budget of (£65-£80k depending on the project).

Topic	Deadline	Trustees' meeting / Decision (mid-month)
Motor Impairments	Deadline for short initial applications: Midnight October 29th 2023 Application Guidelines	
Dyspraxia - Expression of interest for priority setting exercise and economics cost study	Due 1st Feb 2024 Application Guidelines	
Nutrition and/or the Microbiome	Deadline for short initial applications likely Midnight March 3rd 2024 Successful applications informed by March 15th 2024 Full application due 7th April 2024 Trustee meeting July 2024 Application Guidelines	
Physical Activity	Deadline for short initial applications likely Summer 2024 Application Guidelines
