

GENERAL INFORMATION

Target Group	Highly talented early career researchers. The ideal candidate has received his/her PhD or equivalent degree within the past 10 years.
Funding amount	CHF 150'000
Funding period	3 years
Number of fellowships per year	Up to 12
Use of funds to cover the fellow's salary	Up to 50% of the grant amount
Funding of overhead / indirect costs	Up to 10% of the total amount of funding (i.e. CHF 15'000) in addition to the basic grant
Additional funding	Fellows may apply for additional funding at the end of the fellowship to conduct further projects with a focus on evidence to action and scientific capacity building.
Non-financial benefits	In addition to providing fellows with independent and competitive funding, the program offers a wide range of non-financial benefits.

OFFERS AND EXPECTATIONS

The Jacobs Foundation Research Fellowship provides independent and competitive funding. In addition, the fellowship offers a range of non-financial benefits. Fellows are expected to make use of these opportunities for networking and development and to engage with the Jacobs Foundation as detailed below.

What the Jacobs Foundation offers	What the Jacobs Foundation expects
Networking and alumni events and opportunity for exchange with other Jacobs Foundation Research Fellows and alumni	Participation in and contribution to events organized by the Jacobs Foundation, e.g., attendance of annual meeting of the Research Fellowship Program
